Abstract:

Evaluation forms were used twice during the pilot projects in all partners' countries (WP4), by their participants in order to evaluate the HIPON system. The aforementioned evaluation forms dealt with both the revision of General and Systemic Pathology chapters. P2 delivered the template for the evaluation forms and the coordinator of each pilot project was responsible for collecting the aforementioned forms and reporting back to the coordinator. All the filled in evaluation forms are attached to the final report deliverables' supporting material under the file D4.1.1 - Pilot Project in Greece - D4.6.1 - Project in India.
